OUR STORY

Aira Crest Private Limited is a Bengaluru based food export company supplying premium dehydrated vegetables, spices and natural honey from India to buyers worldwide, with every product prepared to meet the import standards of the most demanding markets, including the European Union, the United States and Japan. We combine reliable sourcing from India's leading production clusters with strict, lab verified quality control and dependable export logistics, so importers receive consistent, compliant, well documented product, on every shipment.

We supply hotels and restaurants, supermarkets and wholesale traders, food producers and processors. Custom packaging and private label options are available, and every consignment is dispatched with a batch wise Certificate of Analysis.

* 30% advance, balance against shipping documents;
LC at sight for container volumes

DEHYDRATED BANANA POWDER

Dehydrated banana powder milled from quality bananas, retaining natural sweetness, colour and nutrients. Used in smoothies and health mixes, baby and infant foods, bakery, cereals and natural flavouring. Available from ripe (spray dried) and green/raw banana.

SPECIFICATIONS

HS Code (6 digit)	1106.30 (Harmonised System)
ITC (HS) Code (8 digit)	11063090 (Indian Trade Classification)
Available Forms	Ripe banana powder (spray dried) · green / raw banana flour
Colour	Pale cream to light brown (ripe); off white (green)
Moisture	≤ 5% (international export standard)
Particle size	80–100 mesh
Additives	Green / raw banana flour: no additives. Ripe spray dried powder: maltodextrin carrier, declared on the specification and COA
Foreign matter	Nil
Microbiology	Within export limits; E. coli & Salmonella absent
Packaging	25 / 10 / 5 / 1 kg in cartons or kraft bags with food grade liner; private label available
Shelf life	18–24 months in cool, dry storage
MOQ	500 kg per product; container load pricing on bulk orders

MORINGA LEAF POWDER

Vivid green Moringa oleifera leaf powder milled from cleaned, shade dried pure leaf, free of stem and sweepings. Widely used in dietary supplements, functional foods and beverages, green blends and herbal formulations, with acid insoluble ash reported on every certificate of analysis as the marker of clean, soil free processing.

SPECIFICATIONS

HS Code (6 digit)	1211.90 (Harmonised System)
ITC HS Code (8 digit)	12119099 (Indian Trade Classification)
Available Forms	Shade dried leaf powder (80 mesh standard; finer on request)
Colour	Vivid green
Moisture	≤ 8%
Total ash	≤ 10%
Acid insoluble ash	≤ 1% (reported on every COA)
Protein	≥ 20% (typical for pure leaf)
Foreign matter	Nil
Microbiology	Within export limits; E. coli & Salmonella absent; steam sterilised grade on request
Packaging	25 / 10 / 5 / 1 kg in cartons or kraft bags with foil laminate liner; private label available
Shelf life	18–24 months in cool, dry storage away from light
MOQ	500 kg per product; container load pricing on bulk orders

DEHYDRATED WHITE ONION

Naturally dried white onion with strong aroma and clean, creamy white colour. Free flowing and consistent across batches, with a long shelf life and no added preservatives, ideal for soups, seasonings, snack coatings, ready meals and spice blends.

SPECIFICATIONS

HS Code (6 digit)	0712.20 (Harmonised System)
ITC HS Code (8 digit)	07122000 (Indian Trade Classification)
Variety	White onion (red / pink available on request)
Available Forms	Kibbled / flakes · chopped / minced (3-5 mm, 5-8 mm) · granules (8-40, 20-40 mesh) · powder (40-80, 80-100, 100-120 mesh)
Colour	Creamy white
Moisture	≤ 5% (international export standard)
SO₂	≤ 15 ppm (SO ₂ free / natural grade; treated grade on request)
Foreign matter	Nil
Microbiology	TPC & Yeast/Mould within export limits; E. coli & Salmonella absent
Packaging	25 / 10 / 5 / 1 kg in cartons or kraft bags with food grade liner; private label available
Shelf life	24 months in cool, dry storage
MOQ	500 kg per product; container load pricing on bulk orders

DEHYDRATED TOMATO

Vine ripened tomatoes dried to retain their natural red colour and tangy flavour, with no added colour or preservatives. Available as flakes and powder for sauces, seasonings, soups, bakery and snack applications.

SPECIFICATIONS

HS Code (6 digit)	0712.90 (Harmonised System)
ITC (HS) Code (8 digit)	07129090 (Indian Trade Classification)
Available Forms	Flakes · powder (dried halves available on request)
Colour	Natural red
Moisture	≤ 7% (flakes & powder)
Additives	No added colour, no added preservatives
Foreign matter	Nil
Microbiology	Within export limits; E. coli & Salmonella absent
Packaging	25 / 10 / 5 / 1 kg in cartons or kraft bags with food grade liner; private label available
Shelf life	18-24 months in cool, dry storage
MOQ	500 kg per product; container load pricing on bulk orders

DEHYDRATED GARLIC

Strongly aromatic dehydrated garlic with pungency and flavour retained through controlled drying. Hygienically processed to export standards and offered in flakes through to fine powder for seasonings, blends, sauces and ready meals.

SPECIFICATIONS

HS Code (6 digit)	0712.90 (Harmonised System)
ITC (HS) Code (8 digit)	07129020 (powder) / 07129030 (flakes) / 07129040 (whole, minced, granules)
Available Forms	Flakes · minced / chopped · granules · powder
Colour	Creamy white
Moisture	≤ 6% (international export standard)
SO₂	≤ 15 ppm (SO ₂ free / natural grade; treated grade on request)
Foreign matter	Nil
Microbiology	Within export limits; E. coli & Salmonella absent
Packaging	25 / 10 / 5 / 1 kg in cartons or kraft bags with food grade liner; private label available
Shelf life	24 months in cool, dry storage
MOQ	500 kg per product; container load pricing on bulk orders

TURMERIC

Premium Indian turmeric (*Curcuma longa*) with deep colour and high curcumin content. Offered as whole polished fingers and fine powder for spice blends, food colouring, and health and wellness products.

SPECIFICATIONS

HS Code (6 digit)	0910.30 (Harmonised System)
ITC (HS) Code (8 digit)	09103020 (whole) / 09103030 (powder)
Available Forms	Whole polished fingers · powder
Origin	Salem / Erode / Nizamabad (high curcumin)
Curcumin	2–5% (variety dependent)
Colour	Bright yellow to deep orange
Moisture	≤ 10%
Purity	99% min; no added colour
Foreign matter	≤ 1%
Microbiology	Within export limits; E. coli & Salmonella absent
Packaging	25 / 10 / 5 / 1 kg in cartons or kraft bags with food grade liner; private label available
Shelf life	24 months in cool, dry storage
MOQ	500 kg per product; container load pricing on bulk orders

BLACK PEPPER

Aromatic Indian black pepper (*Piper nigrum*), prized for strong pungency and high piperine. Offered as whole garbled peppercorns and ground pepper for the table, food processing and spice blends.

SPECIFICATIONS

HS Code (6 digit)	0904.11 (whole) / 0904.12 (ground) (Harmonised System)
ITC (HS) Code (8 digit)	09041130 (whole, garbled) / 09041200 (ground)
Available Forms	Whole garbled peppercorns · ground
Grade	MG1 / garbled; bulk density 500–550 g/l
Piperine	3–6%
Moisture	≤ 12%
Light berries / foreign matter	Within ASTA limits
Microbiology	Within export limits; E. coli & Salmonella absent
Packaging	25 / 10 / 5 / 1 kg in cartons or kraft bags with food grade liner; private label available
Shelf life	24–36 months in cool, dry storage
MOQ	500 kg per product; container load pricing on bulk orders

RED CHILLIES

Vibrant Indian dried red chillies (*Capsicum annum*), valued for colour and heat. Offered as whole dried chillies, powder and crushed / flakes for sauces, seasonings, pickles and spice blends.

SPECIFICATIONS

HS Code (6 digit)	0904.21 (whole) / 0904.22 (ground) (Harmonised System)
ITC (HS) Code (8 digit)	09042110 (whole) / 09042211 (powder) (Indian Trade Classification)
Available Forms	Whole dried · powder · crushed / flakes
Varieties	Teja, Guntur Sannam, Byadgi
Heat (SHU)	8,000 to 75,000+ (variety dependent)
Colour value (ASTA)	30 to 160+
Moisture	≤ 11%
Aflatoxin & Sudan dye	Tested to EU / Codex limits
Foreign matter / stalk	Within limits
Microbiology	Within export limits; E. coli & Salmonella absent
Packaging	25 / 10 / 5 / 1 kg in cartons or kraft bags with food grade liner; private label available
Shelf life	12–18 months in cool, dry storage
MOQ	500 kg per product; container load pricing on bulk orders

WILD FOREST HONEY

Raw wild forest honey, unprocessed, unblended and rich in natural enzymes. Sourced from forest belts and lab verified for purity and authenticity, with no antibiotic residues and no added sugar.

SPECIFICATIONS

HS Code (6 digit)	0409.00 (Harmonised System)
ITC (HS) Code (8 digit)	04090000 (Indian Trade Classification)
Type	Raw / wild forest honey, unprocessed & unblended
Moisture	≤ 20% (premium grade ≤ 18%)
HMF	≤ 40 mg/kg (EU / Codex standard)
Sucrose	≤ 5%
Diastase activity	≥ 8 (Schade scale)
C4 sugar (adulteration)	Negative
Antibiotic residues	Not detected for chloramphenicol & nitrofurans (Eurofins tested)
Packaging	Retail glass jars (250 g / 500 g / 1 kg) · food grade HDPE drums (~300 kg) bulk
Shelf life	24 months
MOQ	50 litres (approx. 70 kg); retail jar packs on request

Note: Parameters meet EU / US / Gulf / Japan import standards; every batch is lab verified and shipped with a Certificate of Analysis.
